Realize Inc. Expands RTV Cast Model Business, Adds Second Shift

Noblesville, IND. – Realize Inc. has expanded its rubber molding and urethane casting business by hiring new employees and adding a second shift to production.

Based near Indianapolis, [Realize Inc.](#) creates custom rapid prototypes of products for clients in numerous industries. While Stereolithography has always been a large part of the business, the recent hiring has enabled the company to expand its capacity for rubber molding (RTV) projects.

"The talent we've brought in this year brings with them years of relevant experience with ties to industries including dentistry, rapid prototyping services, toy and hobby, gaming and architectural modeling," said Todd Reese, President of Realize Inc.

Sean Waters, a new Project Success Manager, handles scheduling and serves as a liaison between the RTV department and project managers.

"I am very pleased to be given the opportunity to join the Realize team and look forward to working with the RTV guys to further their success!" Waters said.

Two other new hires are Senior Model Maker Steven Melendez, who has a knack for making models out of just about any material, and Senior Model Maker David Strait, who brings many years of industry experience.

With the new employees, [Realize](#) added a second shift to its production. This increases the efficiency of the company's machinery while putting the Midwest company in a better position to increase throughput.

Other new employees hired this year by Realize include Office Manager Kim Thompson, Finishing Technicians Charlie Guernsey and Shane Cooper, Marketing Assistant Dawn Cazzell and Accounting Assistant Tami Tomey.

Reese says "We expect these staffing additions to position us for continued growth in 2012."

Founded in 1999, Realize is respected as a premier rapid prototyping company and is one of the largest service providers in the Midwest. Services include Stereolithography, RTV molding and Cast Urethane Models, Industrial Design, Computer Aided Design, and Custom Finishing and Painting. Learn more about Realize at www.realizeinc.com.
